

The color and second company set the parade line.

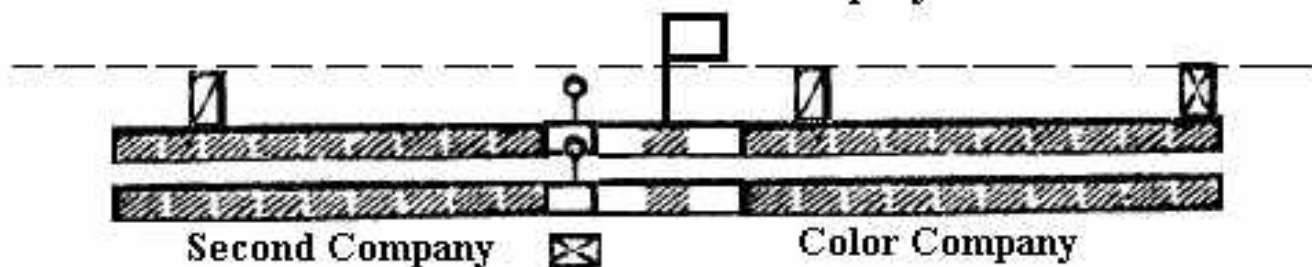

The Color Captain (CC) halts his company and dresses it upon his sergeants who have been placed upon a line designated by the adjutant. Satisfied with the formation, CC will then take his post on the left of his company IN THE REAR RANK.

Second company will halt three paces from the line. After halting, the 2d Sgt and Capt will move to their new posts.

With the 2d Sgt on the line of markers and the left Capt IN THE FRONT RANK, the next company dresses right. Color company is still at shoulder arms.

1st Sgt of the left company dresses one pace behind the color captain. At, "front," the color company supports arms upon command from its captain. When the third company fronts, the second company supports arms and so on.
